WELCOME MESSAGE

Dear colleagues,

It is our great pleasure to announce 13th World and 34th European Congress of Microcirculation which are to be held in Prague, Czech Republic in May 2027 (best weather season). If you visited previous Congresses of Microcirculation in Aarhus (2023), Beijing (2024) or Szeged (2025) you certainly know that it is worthwhile to join these meetings to get knowledge about recent scientific achievements, to obtain the view regarding clinical approaching, but also regarding warm socializing events. As you know, microcirculation is becoming more and more important part in the medical care not only in vascular disease but also in oncology, diabetology, ophthalmology and other important branches of medicine. Moreover, basic and clinical sciences in this area are expanding and developing at breathtaking pace, covering many specialties and it is worthwhile to keep the pace with these developments. Therefore, despite outstanding experience with previous meetings of our Societies, let us highlight several main points, why the meeting in Prague in 2027 will be really an exceptional one.

- 1.** For the first time two meetings are to be held together. The interesting topics regarding micro and microcirculation will be addressed at literally global level. It means that there is unique possibility to meet colleagues from all over the world and to recognize their achievements.
- 2.** At these particular meetings we will stress also the interplay between macrovascular disease and microvascular disease. It means that it will enable clinical physicians to get more/additional knowledge in microcirculatory disorders, and, vice versa, for scientists to get more information of the impact of their work in clinical fields. As you can see in the preliminary program, it was created to offer possibility to fulfill these ambitions and also to facilitate more clinically oriented colleagues to be important part of the Congress at their most convenience (weekend program focused on clinical topics). In particular, transformation of the basic science to offices of vascular specialist of different areas of medicine is one of the main aims of our Congress to be addressed. In conclusion, we will do our best to prepare attractive program in attractive area including plenary sessions and lectures, workshops, hands on workshops, oral poster sessions. Please, see preliminary topics (...).
- 3.** In addition, our goal is to attract also the attention of other Societies, both local (from the Czech Republic) but also at the international level which are operating in similar areas.
- 4.** Moreover, in addition to experienced and outstanding specialists and speakers from all abovementioned fields of diseases and countries, our goal is also to offer younger colleagues to present their results in oral form in friendly circumstances and to introduce their achievements at the international level.
- 5.** Last but not least Prague is one of the most beautiful world towns regarding history, safety, and is easy destination to be reached from the whole world. We also did our best to create attractive social program for all of our guests and in general to make their stay as pleasant and as rewarding as possible. In this respect, we would like also to offer help from our students for those who will be for the first time in Prague with orientation around Congress area.

Dear colleagues, hopefully our Dear guests,

Please, follow our web pages and consider your participation at our big Congress(es) focused on mainly small vessels in Prague in 2027.

Jan Pitha, President of ESM, Secretary general of IUA

On behalf of Organizing committee for 2027 ESM meeting.

PRELIMINARY TOPICS

- 1. Basic pathophysiological mechanism of microvascular (dys)function**
- 2. Interplay between micro- and macrovascular disease**
- 3. Subclinical inflammation in micro- and macrocirculation**
- 4. The role of microcirculation in cardiovascular system:** coronary artery disease, heart failure, peripheral artery disease, vascular complications of diabetes mellitus, hypertension, cerebral circulation
- 5. Venous disease and microcirculation**
- 6. Microcirculation in neurology**
- 7. Microcirculation in oncology**
- 8. Microcirculation in various clinical conditions:** nephrology, ophthalmology, transplant medicine, occupational diseases, autoimmune diseases
- 9. Emerging risk factors for macro – and microvascular disease**
- 10. Microcirculation and lifestyle**
- 11. Gender and sex differences in microvascular disease, role of sex hormones**
- 12. Pharmacology in microvascular disease**
- 13. Past, current and future techniques for microcirculation assessment**
- 14. Risk factors for microvascular disease in different world and culture areas:** assessment and management
- 15. Assessment of vascular dysfunction and its risk factors with limited budget**
- 16. Artificial intelligence in the diagnosis and management of microvascular diseases**

WHY PARTNER WITH US?

Engage with a highly specialized, multidisciplinary community

Unique opportunity to position your organization at the heart of the global microcirculation community. Engage directly with highly specialized, multidisciplinary audience of leading researchers, clinicals, and key decision-makers shaping the future of the field.

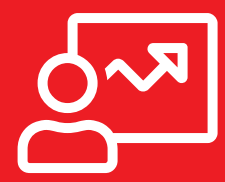

Demonstrate corporate social responsibility

Highlights your commitment to improve health outcomes through science and innovation. Supporting a global congress reflects your dedication to responsible business practices and long-term societal impact.

Build brand awareness and institutional trust

By partnering with a respected congress, you strengthen brand recognition while building lasting trust across academic and clinical community.

Showcase solutions that address the full spectrum of cleft care

Present innovative solutions across the entire field of microcirculation. From fundamental research tools to clinical applications, you can demonstrate how your technologies and expertise contribute to advancing understanding and improving patient outcomes.

Support education and ethical cleft care

Support initiatives that advance education and ensure the continued development of ethical, high-quality care in microcirculation. Your involvement contributes to shaping both scientific understanding and clinical standards for the future.

PARTNERSHIP PACKAGES

PLATINUM PARTNER

- Exhibition space of 16 m²
- Logo in all congress publications
- Logo on official congress website together with a short company description (up to 500 words)
- Partner will be presented as a Platinum Partner in a loop during breaks
- Advertising video in a loop presented in main hall during breaks (up to 40s)
- Two-page advertisement in book of abstracts
- Opportunity to host a 30min company symposium (during the coffee break, date and time will be defined together with scientific programme)
- Official introduction of the Partner in the mailing distributed by organiser
- 6 partner registrations

12.000 EUR

GOLD PARTNER

- Exhibition space of 12 m²
- Logo in all congress publications
- Partner will be presented as a Gold Partner in a loop during breaks
- Advertising video in a loop presented in main hall during breaks (up to 20s)
- Logo on official congress website together with a short company description (up to 400 words)
- One-page advertisement in book of abstracts
- Opportunity to host a 15min company speech (during the coffee break, date and time will be defined together with scientific programme)
- Official introduction of the Partner in the mailing distributed by organiser
- 4 partner registrations

10.000 EUR

SILVER PARTNER

- Exhibition space of 8 m²
- Logo in all congress publications
- Partner will be presented as a Silver Partner in a loop during breaks
- Logo on official congress website together with a short company description (up to 300 words)
- One-page advertisement in book of abstracts
- Official introduction of the Partner in the mailing distributed by organiser
- 3 partner registrations

8.000 EUR

BRONZE PARTNER

- Exhibition space of 6 m²
- Logo in all congress publications
- Partner will be presented as a Bronze Partner in a loop during breaks
- Logo on official congress website together with a short company description (up to 200 words)
- Half-page advertisement in book of abstracts
- Official introduction of the Partner in the mailing distributed by organiser
- 2 partner registrations

5.000 EUR

EXHIBITION

SPACE ONLY

INCLUDED

- Two exhibitor badges (can be used by several staff from the company)
- Company logo on the official congress website
- Power supply (1 kW)

2.500 EUR / 4sqm

Additional sqm: 600 EUR

Additional exhibitor badge: 150 EUR

ADDITIONAL PARTNERSHIP OPPORTUNITIES

SOCIAL EVENTS

WELCOME DRINK

- Company logo displayed at the Welcome drink venue
- Acknowledgement on the website and all conference publications
- Partner's logo will also be featured on the event website and included in the on-site digital loop
- Partner can bring their own flags, napkins, etc. or place roll-up banners in the Welcome drink area

5.000 EUR

GALA DINNER

- Company logo displayed at the Gala Dinner venue
- Acknowledgement on the website and all conference publications
- Partner's logo will also be featured on the event website and included in the on-site digital loop
- Partner can bring their own flags, napkins, etc. or place roll-up banners in the Gala Dinner venue

7.000 EUR

SYMPOSIUM / WORKSHOP

- A 30-minute symposium or workshop held in the morning prior to the official scientific programme
- The package includes a rent of meeting room and standard AV technology. The partner may shape the session content at their discretion, in line with the overall event guidelines

6.000 EUR

COFFEE BREAK / PER ONE COFFEE BREAK

- Company logo displayed in the coffee break area
- Acknowledgement on the website and all conference publications
- Partner can bring their own flags, napkins, etc. or place roll-up banners in the coffee break area

2.000 EUR

ADVERTISING

CONGRESS BAGS

- The company shall provide the bags at its own expense. Bags will be distributed to all delegates and speakers upon registration
